# INTRODUCING FILOSOFIA NATURALE

*Filosofia Naturale is the new line that offers the classic products of Urbani Truffles with only natural aromas. The well-being of the body, mind, and environment revolves around a balanced and nutritious diet.*

*Each product has been designed to meet the various preferences and needs of our consumers and is made with the utmost care in the selection of raw materials, following the ancient Urbani tradition while paying attention to change.*

*Sustainability, quality, safety, and reliability are the foundation of our raw material selection, in order to offer natural, healthy, eco-friendly, and sustainable products.*

*Evoking the unique olfactory and gustatory sensations of truffle is extremely complex, but nature provides everything we need.*

*Thanks to the combination of precious plant matrices found in nature, it is possible to maximise the pure pleasure of truffle products without compromising on a healthy and genuine diet.*

# Certifications

*The line of Filosofia Naturale is born with the aim of listening to the dietary needs and preferences of everyone.*

*To make this possible, a fully sustainable supply chain contributes, where every product is certified with the utmost transparency and attention to the customer, but also towards the realization of kind actions towards the environment and nature.*

## What is a vegan product?

*Vegan products are obtained by excluding any substance of animal origin in all stages of production, from manufacturing to placement on the market.*

## What is a vegetarian product?

*Vegetarian products allow, in the production process, the use of animal-derived products (such as eggs and milk) as long as they are produced in farms that adhere to European standards regarding animal welfare.*

## What does non-GMO means?

*The NON GMO products are made without genetic engineering techniques.*

*The NON GMO products do not require pesticides as they are characterized by their own resistance to pests such as plants and bacteria.*

## What is this certification used for?

*The NON GMO certification, issued by a North American non-profit organization, aims to provide safe, genuine products whose raw materials' origins are fully traceable and completely free of GMOs.*

## What does gluten free means?

*Only products with a gluten content of less than 10 ppm are considered gluten-free.*

## What is this certification used for?

*The gluten-free certification is essential to provide clear identification tools to consumers and to guide them towards conscious purchases, ensuring easy recognition of characteristics and quality.*

# Packaging

*The packaging of each product is completely eco-friendly thanks to the use of only recyclable materials such as glass, metal, paper, and compostable plastic.*

# Processing

*The main objective for our company is to enhance and ensure the safety and wholesomeness of its food productions, throughout the entire production chain.*

*To maintain focus on safety and quality, we are committed to developing greater awareness among all company resources, periodically involved in update and training plans to ensure a healthy, quality product for everyone.*
